

Important

Medical Payments Coverage

Make sure you have this coverage on your auto policy.

For pennies a day, **Medical Payments Coverage** pays doctor's bills, hospital bills and other related costs for you, your family and other passengers in your car, regardless of who is at fault in an accident.

We recommend you carry a minimum of \$5,000 med pay coverage on your auto policy but for a few dollars more you could have \$10,000. (Keep in mind, one day in the hospital can be at least \$5,000)

We also recommend the following insurance companies who treat their medical payments policy holder with respect at this time:

CSAAIB
State Farm Insurance

We do not recommend the following insurance companies who give their own policy holders a great many problems:

Allstate Insurance
Farmers Insurance
USAA Insurance
